Add or edit your Medical Profile info

Add or edit your Medical Profile info · https://www.primaryrecord.com/docs/add-or-edit-your-medical-profile-info/

You can add or edit your information in a Medical Profile, like medications, conditions, allergies, vaccinations, procedures, and visits.

Tip: Labs are automatically added through portal connections or if you upload them as files. But you can’t directly add or edit labs.

Add information

1. On a mobile device or computer, open a browser, and sign into Primary Record.
2. Click **Profiles** > Choose the **Medical Profile** where you want to add information.
3. Choose what you want to add:
    - Medications
    - Conditions
    - Allergies
    - Vaccinations
    - Procedures
    - Visits
4. Add the information and click **Save** or **Next**.

Edit information

1. On a mobile device or computer, open a browser, and sign into Primary Record.
2. Click **Profiles** > Choose the **Medical Profile** where you want to edit information.
3. Choose the information you want to edit:
    - Medications

- Conditions
- Allergies
- Vaccinations
- Procedures
- Visits

4. Add the information and click **Save**.

Bulk edit information

If you want to edit multiple items in your Medical Profile, you can bulk edit your information.

1. On a mobile device or computer, open a browser, and sign into Primary Record.
2. Click **Profiles** > Choose the **Medical Profile** where you want to bulk edit information.
3. Choose the information you want to bulk edit:
   - Medications
   - Conditions
   - Allergies
   - Vaccinations
   - Procedures
   - Visits
4. Click **Bulk edit**.
   - To edit everything in the list, click **Select all**.
   - To edit only a few items, click the ones you want to bulk edit.
5. Choose one of the following:
   - **Status**: You can change the item to inactive or active. Then click **Update**.
   - **Delete**: Click **Delete**.
