December 3, 2023 – Account management updates

2023 · https://www.primaryrecord.com/docs/december-3-2023-account-management-updates/

- **General**
  - Users can now delete their accounts and all the profiles they are the organizer. The delete button is on the My Account page of the application. This is a hard delete. Information can not be retrieved after the function is run.
- Medical Profile
  - Resolved an issue preventing users from selecting the “gender” and “sex assigned at birth” picker in the profile creation and information pages.
  - Resolved an issue that presented a user with an application error when trying to access a patient portal integration details screen while data was being collected. The user will now be able to navigate to the details screen and see a notice that data is sill loading.
  - The care team type selector order was updated to present users the types in order of most used on the application by all users. (All) (Providers) (Support) (Insurance)
