Give feedback to Primary Record

Get help with Primary Record · https://www.primaryrecord.com/docs/give-feedback-to-primary-record/

Share your feedback directly in the Primary Record Canny community. Engage with other users' suggestions by voting up and contributing your requests. Join the community to actively participate in shaping the platform's future features and improvements.

Give feedback and view roadmap

You can provide suggestions and see planned or completed updates by going to **Support > Feedback and Roadmap**. Two feedback boards are available: one for family users and one for professional users. You can submit feature requests, vote on existing ideas, and view the roadmap for upcoming and delivered features.

You can see major updates and changes in **Release Notes**, like new features, bug fixes, and other significant updates.
