September 13, 2026 – Chat Assistant & medication deduplication improvements

2026 · https://www.primaryrecord.com/docs/september-13-2026-chat-assistant-medication-deduplication-improvements/

Bugs & Issues

- Improved the Chat Assistant's handling of non-English questions, providing more accurate responses.
- Fixed an issue where the QR code for accessing a report from a device scan was not displaying in the correct location.
- Resolved a bug in the medication deduplication logic that could cause incorrect handling of duplicate medications.
